Library is automated by using eCAP, an integrated library management system. It has the facilities for issue, return of books and maintaining record of books by using OPAC (Online Public Access Catalogue) which is used by students & faculty for search of books by title/author name etc.

Digital Library is also available with facilities such as subscription, e-journals, e-books. E-Library resources, various journals are provided for access and helps in upgrading the research knowledge of the staff and students.

Library is supported by more than 12818+ textbooks, reference books, national/international journals, and other readable articles in printed form.

Library has a seating capacity for 60 students. Computer terminals with latest software and free internet facility are available for student and staff. It is also equipped with Wi-Fi for internet access on personal notebooks/laptops.

Library is equipped with printing and photocopying facility for the convenience of the students. National and international printed or online journals are made available for the students. Library management software designed and developed by the Information Libraries Network Centre (INFLIBNET).

It is user-friendly software developed to work under client-server environment. It provides default template for data entry of various types of documents.

It also supports the process of stock verification. Maintenance support is provided in the case of binding, loss, replacement, missing, withdrawal of books etc. Issue, return was based on transaction.

In case of barcode-based computerized circulation, accession numbers of books are converted into barcodes and printouts of barcodes are pasted at different places on the books e-CAP Software is used to maintain, the students and staff entry register with the help of barcode present on the identity card of students and staff respectively for authorized access of books.
